

Data Wrangling with the Tidyverse

Your Turn

Form groups of 2-4 people. Introduce yourself and prepare for some group quizzes. Tell them:

1. Who you are
2. What you do with data
3. How long you have been using R

Quiz

What are the variables in this data set?

table2

The image shows a screenshot of a data table with four columns: country, year, type, and count. The table contains 10 rows of data. Hand-drawn arrows indicate the variables in the data set: a straight arrow for 'country', a straight arrow for 'year', and a wavy arrow for 'count'.

country <chr>	year <int>	type <chr>	count <int>
Afghanistan	1999	cases	745
Afghanistan	1999	population	1998701
